The Child's Play Mazda 3 explains, step by step, with a picture for each, how to do the service of your Mazda 3. It is based on the certainty that everyone can do it, if clearly explicated and shown. Because it is very simple.This manual is suitable for the MAZDA 3 FIRST GENERATION (2003-2007); ENGINE 1.6 L MZ-CD COMMON-RAIL DIESEL: 109 PS (80 KW), 240 N***M (177 LB*FT)**It contains an accurate list of the tools you need, a detailed procedure to do your Mazda 3 service, but also to check and replace your brakes (pads and discs). You will see an example of the service book you should keep up to date, and the scheduled maintenance for all the tasks that have to be done to keep your car in the best conditions.The main goal is to save money. For each maintenance, it will cost you from 35e to 50e maximum, while it costs more than 200e at your car dealer. You save at least 150e per service.More than money, you save time here ! We assure you than after the first learning, you will not need more than 30 minutes! Better than go to the car dealer and wait for two hours.The Child's Play Maintenance manuals have the goal to allow anyone to do its car service himself. We think your mechanic charge far too much for what it is, and we want you to avoid this useless expense. The Child's Play Mazda 3 is the first of the serie, each manual is specific to a single model (location of the parts are different, as the way to replace them)

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." - The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

Complete coverage for your Subaru Legacy (10-16) & Forester (09-16):

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.
