Mallory Westin was born into power. But when her family 's quest for more power caused her a broken heart, she turned her back on the only life she ever knew. Now a successful owner of a security firm, she 's determined to forge her own path. But sometimes one 's past isn 't so easy to leave behind. Mallory has to take control of the power she was destined for after discovering her politician father is involved in an assassination plot. Things only get worse as the one man she's always loved becomes a target as well. Reid Simpson had loved Mallory since they were teenagers. Then one night changed everything as she suddenly broke his heart. For years, he escaped the pain as he built his resort and casino empire. He pushed her from his mind, if not his heart. As Reid encounters increasing danger, he finds that Mallory is the one by his side trying to protect him. Can Reid and Mallory work together to uncover the assassination plot while avoiding the pain of the past? Or will they discover that love has a way of conquering all?

Of the many issues facing special education (and general education) today, it is difficult to imagine one more important or timely than response to intervention (RTI). Almost overnight RTI has become standard practice across the nation. Unfortunately, RTI remains ill-defined, falls far short of its evidence-based practice goal, is almost invariably misused, and often results in more harm than good. Nevertheless, as a conceptual framework RTI has great potential for ensuring that students with disabilities receive appropriate, evidence-based instruction. The mission of this handbook is to present a comprehensive and integrated discussion of response to intervention (RTI) and its relation to multi-tiered systems of support (MTSS) in both special education and general education. Although the two terms are currently used interchangeably, distinct differences exist between them. Therefore, chapters are dedicated to distinguishing the two concepts—RTI and MTSS—and describing each one 's unique role in both general and special education. In addition, the authors recommend a third term, Multi-Tiered Instruction, to differentiate the practices related to the purpose of the specific intervention.

At the age of 15, Taylor Beauforte has only met her father twice in person. After all, he is the lead singer of a world-famous rock band, constantly on the cover of music magazines and giving interviews on MTV. He pays for Taylor to attend the Treadwell Academy, a prestigious boarding school in Massachusetts, and provides her mother with monthly checks to cover her basic needs, but has never made much of an effort to play an active part in Taylor 's life. Taylor's mom Dawn is the only family she has ever really known, and because of Dawn's hard-partying Hollywood lifestyle, studious Taylor is happiest on the other side of the country in Massachusetts with her nose buried in a book. When Taylor 's mom unexpectedly dies the summer before Taylor starts her junior year, she receives a crash course in fame. She has no choice but to join her father and his new family on their summer concert tour before she has even had a chance to mourn the loss of her mother. Life as the daughter of a rock star seems like it would be enviable, but Taylor can't figure her dad out. He seems like a supportive authority figure (even if he's kind of a fashion tragedy) , but she is collecting a growing pile of evidence that he's a liar and a cheat. Her stepmother, Jill, can 't seem to decide if she wants to treat Taylor like a girlfriend or a nuisance. Having had no time to grieve and say goodbye to her childhood before being thrust into the limelight, Taylor is suddenly finding herself in situations she could have never imagined before this summer. With no one else to turn to, Taylor falls head over heels in love with Jake, the teenage son of one of the band's touring groupies. Taylor has growing concerns about Jake's background and the suspicious relationship between his mom and her own father, but is desperate for something real in her life onto which she can build a future. When Jake offers Taylor an opportunity to join him on a whirlwind adventure and leave her problems with her father far behind, Taylor has to decide – should she carve out her own way in the world, or try to repair the relationship she has with her only living parent? Over the course of the summer with the band, Taylor learns the depths of her own strength, the difficulty of overcoming loss, and that the definition of family means much more than shared bloodlines. Publisher 's Advisory: This book is intended for readers aged 12 and above. This book addresses topics of grief, infidelity, and includes romantic situations and mild language. We encourage parents to address mature topics associated with the difficult decisions of growing up with teen readers.

"A 22-volume, highly illustrated, A-Z general encyclopedia for all ages, featuring sections on how to use World Book, other research aids, pronunciation key, a student guide to better writing, speaking, and research skills, and comprehensive index"--
