What price victory The war with the Republic of Haven has resumed . . . disastrously for the Star Kingdom of Manticore. Admiral Lady Dame Honor Harrington, Steadholder and Duchess Harrington, the single victorious Allied commander of the opening phase of the new war, has been recalled from the Sidemore System to command Eighth Fleet. Everyone knows Eighth Fleet is the Alliance's primary offensive command, which makes it the natural assignment for the woman the media calls "the Salamander." But what most of the public DOESN'T know is that not only are the Star Kingdom and its Allies badly outnumbered by the Republic's new fleet, but that the odds are going to get steadily worse. Eighth Fleet's job is to somehow prevent those odds from crushing the Alliance before the Star Kingdom can regain its strategic balance. It's a job which won't be done cheaply. Honor Harrington must meet her formidable responsibilities with inferior forces even as she copes with tumultuous changes in her personal and public life. The alternative to victory is total defeat, yet this time the COST of victory will be agonizingly high. At the publisher's request, this title is sold without DRM (Digital Rights Management).

The New York Times Best-Selling Series Continues. First Time in Paperback. A New War for Honor Harrington's Comrades on Manticore. Rear Admiral Michelle Henke was commanding one of the ships in a force ledy by Honor Harrington in all-out space battle. The odds were against the Star Kingdom forces, and they had to run. But Michelle's ship was crippled, and had to be destroyed to prevent superior Manticoran technology from falling into Havenite hands, and she and her surviving crew were taken prisoner. Much to her surprise, she was repatriated to Manticore, carrying a request for a summit conference between the leaders of the two sides which might end the war. But a condition of her return was that she gave her parole not to fight against the forces of the Republic of Haven until she had been officially exchanged for a Havenite prisoner of war, so she was given a command far away from the war's battle lines. What she didn't realize was that she would find herself on a collision course, not with a hostile government, but with the interstellar syndicate of criminals known as Manpower. And Manpower had its own plans for eliminating Manticore as a possible threat to its lucrative slave trade, deadly plans which remain hidden in the shadows.

A new installment in the best-selling series by the author of Ashes of Victory takes place two years later and finds Honor Harrington facing a new set of adventures as she becomes embroiled in an interstellar war that could destroy the Manticoran Alliance, the Republic of Haven, and the Andermani Empire.

STUDENTS OF HONOR . . . The Star Kingdom of Manticore is once again at war with the Republic of Haven after a stunning sneak attack. The graduating class from Saganami Island, the Royal Manticoran Navy's academy, are going straight from the classroom to the blazing reality of all-out war. Except for the midshipmen assigned to the heavy cruiser HMS Hexapuma, that is. They're being assigned to the Talbot Cluster, an out of the way backwater, far from the battle front. The most they can look forward to is the capture of the occasional pirate cruiser and the boring duty of supporting the Cluster's peaceful integration with the Star Kingdom at the freely expressed will of eighty percent of the Cluster's citizens. With a captain who may have seen too much of war and a station commander who isn't precisely noted for his brilliant and insightful command style, it isn't exactly what the students of Honor Harrington, the "Salamander," expected. But things aren't as simple as or tranquil as they appear. The "pirates" they encounter aren't what they seem, and the "peaceful integration" they expected turns into something very different. A powerful alliance of corrupt Solarian League bureaucrats and ruthless interstellar corporations is determined to prevent the Cluster's annexation by the Star Kingdom . . . by any means necessary. Pirates, terrorists, genetic slavers, smuggled weapons, long-standing personal hatreds, and a vicious alliance of corporate greed, bureaucratic arrogance, and a corrupt local star nation with a powerful fleet, are all coming together, and only Hexapuma, her war-weary captain, and Honor Harrington's students stand in the path. They have only one thing to support and guide them: the tradition of Saganami. The tradition that sometimes a Queen's officer's duty is to face impossible odds . . . and die fighting. At the publisher's request, this title is sold without DRM (Digital Rights Management).
