with both new and refurbished iconic Bang & Olufsen speakers, TVs and sound systems..

The speed at which technology is currently advancing has made the creation of electronic products one of the most prolific and fascinating areas of contemporary design. Product styling, too, is increasingly innovative, even fun; the "black box" is finally a thing of the past as manufacturers vie to make their products more appealing to style-conscious consumers. This book brings together over one hundred examples of the latest, most sophisticated electronic devices, including domestic appliances, televisions, computers, telephones, cameras, sound equipment, timepieces, and the latest in wearable technology. The products are drawn from manufacturers and designers internationally and are described with full technical detail and clearly illustrated by color photography and annotated drawings. Products featured range from a robotic lawnmower to the thinnest wall-mounted television monitor; from a combined wristwatch and MP3 player, to a household internet device that allows communication between kitchen appliances. As well as products already in mass production, a number of concept models are included, revealing designers' future visions for microwave ovens, communication devices, and even a humanoid robot. On/Off provides a fascinating review of the cutting edge of contemporary product-design thinking for professional designers, students, and anyone intrigued by high-tech gadgetry and new technology. toolsets of V-Ray 5 for 3ds Max 2020. The book is filled with colorful illustrations depicting step-by-step tutorials about the process of creating a photorealistic day-and-night exterior scene. Each tutorial includes a 3d project scene to guide users through the production and the post-production processes. The book begins with an overview of the best techniques to approach clients via emails, calls, meetings, and via social media. There are also key insights into the best practices of handling projects, pricing, contracts, invoices, the pre-production, production, and the post-production, to name but a few. Throughout the book, users are taken through V-RayMtl functions such as Diffuse, Roughness, Reflect, Glossiness, Metalness, Refract, Index of Refraction (IOR), Abbe number, Fog color, Translucency, BRDF, Coat, Sheen, and Bump. Also, users will learn how to use procedural maps such as V-RayBitmap, V-RayTriplanarTex, Bricks, Metals, Carpaint, V-RayDisplacementMod, V-RayUVWRandomizer, V-RayMultiSubTex, V-RayPointCloudColor, V-RayDirt, V-RayAerialPersepective, V-RayLightMtl, V-RayMtlWrapper, V-RayOverrideMtl, V-Ray2SidedMtl, V-RayBlendMtl, and V-RayEdgesTex. In addition, there are tips and tricks accompanied with videos highlighting how to create VR interactive apps using Verge 3d; how to create verified views; and how to use plug-ins and scripts such as Project Manager, Auto grid pivot point, GarageFarm, Zmapping, gobotree, and V-Shopper. Finally, users will have a rare insight into all functionalities of a V-Ray camera, V-RayLight objects, Render settings, Frame buffer, Global switches, IPR options, Bucket and Progressive image samplers, Image filters, Global DMC, Color mapping, Brute force global illumination, Light cache, Color management, Distributed rendering, Render elements, V-Ray image file format, VFB History settings, VFB Lens Effects, LightMix, Film tonemap, Hue/Saturation, Lookup Table, and much more. Key Features This book deals with real projects/3d scenes and delivers up-to-date V-Ray 5 functionalities and production workflows using 3ds Max 2020 This book has
