Practical flight training is performed entirely in the full flight simulator. Each practical training event is preceded by a 60- or 90-minute instructor-led briefing and followed by a detailed debriefing. Check rides are delivered by a qualified Boeing examiner, customer-assigned examiner, or approved regulator.

While not a type-rated 747 pilot, he said the basic principle in a dual FMC failure scenario would be for the human flight crew to take over from the computers and use their finely honed skills to safely land the airliner and its passengers. Boeing's software development process has come under intense scrutiny since the two 737 Max crashes.
