Presents the doctrines and beliefs of the Unitarian Universalism

For those contemplating religious choices, Unitarian Universalism offers an appealing alternative to religious denominations that stress theological creeds over individual conviction and belief. In this new edition of the classic introductory text on Unitarian Universalism, which includes a revealing, entertaining foreword by best-selling author Robert Fulghum (*All I Really Need to Know I Learned in Kindergarten, It Was on Fire When I Lay Down on It*), a new preface by UU moderator Denise Davidoff, and two new chapters by the authors, John Buehrens and Forrest Church explore the many sources of the living tradition of their chosen faith.

Presents the doctrines and beliefs of the Unitarian Universalism

How is a free faith expressed, organised and governed? How are diverse spiritualities and theologies made compatible? What might a religion based in reason and democracy offer today's world? This book will help the reader to understand the contemporary liberal religion of Unitarian Universalism in a historical and global context. Andrea Greenwood and Mark W. Harris challenge the view that the Unitarianism of New England is indigenous and the point from which the religion spread. Relationships between Polish radicals and the English Dissenters existed and the English radicals profoundly influenced the Unitarianism of the nascent United States. Greenwood and Harris also explore the US identity as Unitarian Universalist since a 1961 merger and its current relationship to international congregations, particularly in the context of twentieth-century expansion into Asia.

Introduces the Unitarian Universalist religion, describing the beliefs upon which it was founded, how its members worship, and how they serve their community.

McLennan addresses the concept of Jesus as historical figure and as the presents Christ. In doing so he explores the reality and meaning of the Christmas and Easter stories, the Trinity, Christ's divinity, miracles, salvation, religious pluralism and exclusivism, and more.

This six-session program for individuals and groups explores *Our chosen faith: an introduction to Unitarian Universalism* by John A. Buehrens and F. Forrester Church.

For over a generation now, conservative religion has seemed to be dominant in America. But there are signs of a liberal religious renaissance. For it to flourish, laypeople need a sense of their theological heritage. A House for Hope lays out, in lively and engaging language, the theological house that religious liberalism has inherited—and suggests how this heritage will need to be spiritually and theologically transformed. With chapters that suggest liberal religious commitment is based on common hopes rather than adherence to religious creeds, ask why human beings gather in communities with spiritual goals in the first place, discuss the importance of social and cultural context, and seek a Spirit that moves within us and among us, A House for Hope will provide religious liberals not only a theological but also a spiritual foundation for the years ahead.
