A tithe is a tenth of your earnings. Tithes help pay the pastor's salary, keep the lights on and meet the community's needs. Regular tithing gives you spiritual power to attract what you need, when you need it. Dr John Tibane scolds those who give emotionally in church, left with nothing but conflict with their spouses, because they end up using what belongs to the family unit.

The heat of *Basic Instinct* and the suspense of *The Bone Collector*! Family, revenge, murder, and passion spearhead this twisty steamy plot that follows ambitious young literary agent, Zia, who finds herself in a love triangle with a wholesome southern attorney and a captivating British author who just happens to be her client.

The ideas and experiences shared by author Nene Molefi speak directly to the troubling prejudices and inequities that persist in our world. Diversity and inclusion are more pressing than ever. Injustices and deep social divisions persist, personally and systemically. Racism, sexism, homophobia, and other forms of fear and hatred are not isolated. They remain embedded and they demand courageous, deliberate work. In this book, Nene uses her own story to cast a bright light on the transformation journey. Nene's book quite vulnerably takes the reader on Nene's personal journey. In addition to the deeply personal content, each chapter ends with practical guidelines on how to lead inclusively. Nene's book offers hope and substance in our vision of a diverse and inclusive and just society.' A-Justice Edwin Cameron 'This is a deeply authentic personal narrative offering powerful and practical insights, from one of South Africa's foremost advisors on diversity and transformation. It should be required reading for any leader who is serious about effectively transforming their organisation.' A-Dr Jonathan Broomberg, CEO, Discovery Health 'A Journey of Diversity & Inclusion in South Africa will enable all of us to meaningfully interpret and articulate our own biases, narratives and the contributions we can make to heal our fractured nation.' A-Prof Nicola Kleyn, Dean, University of Pretoria's Gordon Institute of Business Science (GIBS) 'It is no longer good enough to say diversity is an asset. Leaders are expected to lead the way of inclusion, live the values and thereby define the DNA of their organisation.' A-Bongani Nqwababa, Joint President & CEO, Sasol Limited 'Mind-opening for those yet to be convinced of the need for transformation, and helpful to those who are already committed to transformation but are not sure how to play a part. This book will empower willing transformers!' A- Thulani Sibeko, Executive for Marketing, Communications and Corporate Affairs, Nedbank 'Nene Molefi offers a personal and professional model that will benefit anyone who wants to make a difference in this world.' A-Julie O'Mara, President, Centre for Global Inclusion, Co-author *Global Diversity & Inclusion Benchmarks*, Former National President, Association for Talent Development

This vivid evocation of the lives of 32 boys from a Johannesburg township is essential reading for anybody wishing to understand black masculinity in South Africa *Becoming Men* is the story of 32 boys from Alexandra, one of Johannesburg's largest townships, over a period of twelve seminal years in which they negotiate manhood and masculinity. Psychologist and academic Malose Langa has documented graphically what it means to be a young black man in contemporary South Africa. The boys discuss a range of topics including the impact of absent fathers, relationships with mothers, siblings and girls, school violence, academic performance, homophobia, gangsterism, unemployment and, in one case, prison life. Dominant themes that emerge are deep ambivalence, self-doubt and hesitation in the boys' approaches to alternative masculinities that are non-violent, non-sexist and non-risk-taking. The difficulties of negotiating the multiple voices of masculinity are exposed as many of the boys appear simultaneously to comply with and oppose the prevalent norms. Providing a rich interpretation of how emotional processes affect black adolescent boys, Langa suggests interventions and services to support and assist them, especially in reducing the high-risk behaviours generally associated with hegemonic masculinity. This is essential reading for students, researchers and scholars of gender studies who wish to understand manhood and masculinity in South Africa. Psychologists, youth workers,

lay counsellors and teachers who work with adolescent boys will also find it invaluable.

Death of an Idealist is the biography of Neil Aggett, the only white person to die while being held in custody by South Africa's apartheid security police. A medical doctor who worked most of the week as an unpaid trade union organiser, Aggett's stark non-materialism, shared by his partner Dr Elizabeth Floyd, aroused suspicions. When their names appeared on a list of 'Close Comrades' prepared for opposition leaders in exile they were among a swathe of union activists detained in 1981. After 70 days in detention Aggett was found hanging from the bars of the steel grille in his cell in John Vorster Square. He was the 51st person, and the first white person, to die in detention. He was 28. His death provoked an enormous public outcry, his funeral attended by thousands of workers who marched through the streets of Johannesburg. This quiet, intense young man was, in death, a 'people's hero'. Born to settler parents in Kenya in 1953, Neil Aggett moved with his family to South Africa in early childhood. He attended school in Grahamstown before studying medicine at the University of Cape Town. Death of an Idealist explores the metamorphosis of a high-achieving, sports-loving schoolboy into a dedicated activist and unpaid trade union organiser. Beverley Naidoo traces Neil Aggett's life, in particular the years leading up to his detention as a result of a Security Branch 'sting' operation, the weeks of interrogation, and the inquest that followed his death. She recreates the momentous events of his life and, in doing so, reveals the extraordinary impact Neil's life had on those around him including his family, friends and comrades. Today, a generation later, South Africa is free and democratic. Yet the idealism and sacrifice displayed by Neil Aggett and so many others appears to have been replaced by cynicism and hand-wringing. Death of an Idealist is as much the story of a remarkable young man as it is a reminder that every generation needs its idealists.
