Engineering Economics . The essential idea behind engineering economics is that money generates money. You cannot compare \$10.00 today to \$10.00 a year from now without adjusting for the investment potential. A simple example would be to take the \$10.00

Download File PDF Engineering Economic Tables

and put it in a savings account at 2% interests. After a year you have \$10.20 instead of \$10.00.

Engineering Economics - Louisiana Tech University

“Economics is the study of how people and society choose to employ scarce resources that could have alternative uses in order to produce various commodities and to distribute them for consumption, now or in the future, ...” from Paul Samuelson and William Nordhaus, Economics, 12th Ed., McGraw-Hill, New York, 1985. WHAT IS ENGINEERING ECONOMICS?
