Storm Distribution Regions. NRCS-New York has published a map that shows the new four Storm Distribution Regions that should be used with the new county rainfall tables for the new Engineers Field Handbook, Part 2 (EFH2) method. When watersheds are close to the boundary of the regions, the appropriate quad map can be examined to determine the appropriate storm region to use.

It's not really a handbook; it's a broad survey course for sophomore engineering students. There simply is insufficient depth in any one subject for a working engineer to design or simulate a machine or process or structure. I read a few pages everyday and managed to get through the whole book, but I cannot
