Led by the legendary Harald Hardrada, these mercenaries will do whatever it takes to win. Hiding in their ranks is Solveig - a fifteen-year-old girl. Amid the excitement and danger of combat, she must face terrible truths about the brutality of her people - and of her father. And, in the end, she will have to choose between all she holds dear, and what she believes is right. An epic adventure about Vikings and Saracens, ship battles and land-raids, loyalty and sacrifice.

Although in Latin America there are no educational programs specialized in comparative education, as there are in some European, Oriental and North American universities, there are scholars who cultivate this field. With the production of this book, the authors -most of them affiliated to member organizations of the World Council of Comparative Education Societies- are walking towards a Latin American network of researchers with an interest in establishing a dialogue with non-Spanish speaking colleagues from the rest of the world. This is the reason of our effort in writing most of the chapters in English. Comparative education, as all disciplinary fields, has evolved with different ways of thinking, approaching and constructing its objects of research and analysis, which are nurtured by different epistemological traditions living together in our times, enriching and bringing complexities. From Argentina, Chile, Uruguay, Brazil, Peru, Venezuela, Costa Rica and Mexico, the authors of the book pose questions, historical descriptions, reflections, discussions and cases to set forth their views.
