students and thinkers who want to understand the theoretical origins and complexities of contemporary feminist debates.

In this survey of feminist theory, Rosemarie Tong provides coverage of the psychoanalytic, existential and postmodern schools of feminism. The author guides the reader through the complexities of even the most notoriously difficult thinkers. Students will meet and become familiar with many of the essential figures in the feminist tradition, from Wollstonecraft and Engel, on through de Beauvoir, Dinnerstein, and Daly, and up to Mitchell and Cixous. The text treats all views with respect and encourages students to think

## Comprehensive Introduction

Exploring more than 100 of the most important ideas, organizations, and events to have defined the feminist movement, this is an essential introduction to feminism. The latest entry in DK's bestselling Big Ideas series, *The Feminism Book* is a complete study of feminism. Trace the subject from its origins, through the suffrage campaigns of the late 19th century, to recent developments such as the Everyday Sexism Project and the #MeToo movement. Examine the ideas that underpin feminist thought through crucial figures, from Simone de Beauvoir to Chimamanda Ngozi Adichie, and discover the wider social, cultural,

and historical context of their impact. Find out who campaigned for birth control, when the term "intersectionality" was coined, and what "postfeminism" really means in this comprehensive book. Using the Big Ideas series' trademark combination of authoritative, accessible text and bold graphics, the most significant concepts and theories have never been easier to understand. Packed with inspirational quotations, eye-catching infographics, and clear flowcharts, The Feminism Book is a must-have for anyone with an interest in the subject.

first-person voices, it brings feminism to life and lives to feminism.

"In this pathbreaking collection of articles, Dr. Beverly Guy-Sheftall has taken us from the early 1830s to contemporary times. Only since the seventies have black women used the term "feminism." And yet, it is that concept that she uses to bring into the same frame the ideas and analyses of Maria Stewart, Sojourner Truth, and Frances W.E. Harper of the early nineteenth century, and the work of women such as the late Audre Lorde, Barbara Smith, and bell hooks who stand on the threshold of the twenty-first century... She has refused to cut off contemporary African

Patricia Hill Collins explores the words and ideas of Black feminist intellectuals as well as those African-American women outside academe. She provides an interpretive framework for the work of such prominent Black feminist thinkers as Angela Davis, bell hooks, Alice Walker, and Audre Lorde. The result is a superbly crafted book that provides the first synthetic overview of Black feminist thought.

This is the first book to offer a systematic account of feminist philosophy as a distinctive field of philosophy. The book introduces key issues and debates in feminist philosophy including: the nature of sex, gender, and the

body; the relation between gender, sexuality, and sexual difference; whether there is anything that all women have in common; and the nature of birth and its centrality to human existence. An Introduction to Feminist Philosophy shows how feminist thinking on these and related topics has developed since the 1960s. The book also explains how feminist philosophy relates to the many forms of feminist politics. The book provides clear, succinct and readable accounts of key feminist thinkers including de Beauvoir, Butler, Gilligan, Irigaray, and MacKinnon. The book also introduces other thinkers who have influenced feminist philosophy including Arendt,

a present reality rather than a mere future possibility. No other cluster of medical issues affects the genders as differently as those related to procreationcontraception, sterilization, abortion, artificial insemination, in vitro fertilization, surrogate motherhood, and genetic screening. Yet, the moral diversity among feminists has led to political fragmentation, foiling efforts to create policies that are likely to serve the interests of the largest possible number of women. In this remarkable book, Rosemarie Tong offers an approach to feminist bioethics that serves as a catalyst, bringing together the varied perspectives on choice, control, and connection. Emphasizing the

Complexity of feminist debates, she guides feminists toward consensus in thought, cooperation in action, and a world that would have no room for domination and subordination. Tong fairly and comprehensively presents the traditions of both feminist and non-feminist ethics. Although feminist approaches to bioethics derive many insights from nonfeminist ethics and bioethics, Tong shows that their primary source of inspiration is feminist ethics, leading them to ask the so-called woman question in order to raise womens consciousness about the systems, structures, and relationships that oppress them. Feminist bioethicists are, naturally, focused on acting

locally in the worlds of medicine and science. Their different feminist voices must be raised at the policy table with one message in order to actually do something to make gender equity a present reality rather than a mere future possibility. Inability to define a plan that guarantees liberation for all women must not prevent feminists from offering a plan that promises to improve the estates of many women. Otherwise, a perspective less appealing to women may fill the gap.
