Do you want to help build what's next for journalism? Then jump into Mark Briggs' proven guide for leveraging digital technology to do better journalism. The media landscape changes with such ferocious speed that as soon as new technologies gain a foothold, older ones become obsolete. To keep ahead and abreast of these ever-evolving tools and techniques, Briggs offers practical and timely guidance for both the seasoned professional looking to get up to speed and the digital native looking to root their tech know-how in real journalistic principles. Learn how to effectively blog, crowdsource, use mobile applications, mine databases, and expertly capture audio and video to report with

immediacy, cultivate community, and tell compelling stories. Journalism Next will improve digital literacy, fast. Briggs begins with the basics and then explores specialized skills in multimedia so you can better manage online communities and build an online audience. Journalism Next is a quick read and roadmap you'll reference time and time again. Dive into any chapter and start mastering a new skill right away. And for today's journalist, who can afford to waste any time?

This full-color illustrated guide takes you through all aspects of video production, focusing on action sports. From planning and preparation to editing and postproduction, you'll get a solid understanding of the changing technology, camera techniques, and basic to more-advanced shooting principles that can be applied to almost every scenario you encounter. The countless examples of camera tricks and techniques used at major events apply to any kind of shoot. Equally as important, you're encouraged to go beyond merely recording the scene and learn how to think like a professional cameraman. Predicting and anticipating is perhaps the greatest talent a cameraman can acquire. It means keeping both eyes open and see not only what is happening around your frame, but also what is about to happen in it. Master the techniques and tools of the trade so you can create compelling and creative work. Includes tips on how to: \* Choose a format \* Develop your own style \* Plan for a successful project, including funding and distribution \* Capture the shot in any environment \* Shooting tips and techniques for skateboarding, snowboarding, wakeboarding, surfing, freestyle BMX, and more

The Third Edition of Journalism Next: A Practical Guide to Digital Reporting and Publishing is the most informed, practical, and succinct guide to digital technology for journalists. Author Mark Briggs' forward-thinking techniques and accessible style prepares today's journalists for tomorrow's media landscape transformations. Readers will learn how to effectively blog, crowdsource, use mobile technology, mine databases, and expertly capture audio and video to report with immediacy, cultivate community, and convey compelling stories. Briggs helps readers quickly improve their digital literacy by presenting the basics and building on them to progress towards more specialized skills within multimedia. Readers will become equipped to better manage online communities and build an online audience. Journalism Next is a quick yet valuable read that provides a detailed roadmap for journalists to reference time and time again.

"This is the ultimate primer for Final Cut Pro editors working in High Definition! Host Noah Kadner takes a field trip to Abel Cine Tech in Hollywood to test-drive a wide cross-section of HD cameras including models from Sony, Panasonic, JVC and Canon. He then returns to the edit suite to work with the HD footage from each camera in post-production. Cameras explored in this veritable HD buffet include: Panasonic HPX-500 and 2000, Sony PDW-F350 and HVR-V1U, JVC HD-250U, Canon XL-H1 and more. Noah has answered thousands of FCP-related questions during his years spent as a forum leader in message boards like 2-pop.com, CreativeCOW, and DVXuser.com. He's also spent years as an Apple Certified Pro instructor in Final Cut Studio and as a systems integrator and private consultant for 24p HD production and editing in Hollywood. Now he brings you all of that knowledge and experience in this course. Armed with this training video, Final Cut Pro 7 editors will be able to collaborate with producers and cinematographers working in many different high definition formats. Learn the right settings for the cameras and FCP and complete all of your HD projects quickly and painlessly! Here are just few things that are covered in High definition survival guide, Panasonic P2 Sony XDCAM HD HDV in 1080i and 720p, JVC ProHD 24p Panasonic AVCIntra DVCPROHD HD to SD, course down-conversion export to Apple Color, export for Web, export for film, and much more."--Resource description page.

Put the video podcast medium to work for you and your clients with a winning formula. Know how video podcasts work and every facet of what it takes to produce a professional-quality program that will meet every criterion for success. The authors are seasoned video production pros that have been on the crest of the video podcasting wave as it has risen. With over 2500 episodes produced, they can reveal what works and what doesn't with detailed, illustrated guidance. You get the nuts and bolts of the complete process, including: \* Preproduction: budgeting guidelines, mapping your production, and working with talent \* Production: the ENG shooting style, lighting values and portability, sound, essential camera features, acquisition formats, and gear lists \* Postproduction: resources for adding music and images, motion graphics, and editing techniques \* Delivery: cost-effective hosting options, creating RSS feeds, compression, and hosting processes \* Promotion: choosing directories, promoting your program, and monetizing your podcast Instruction and case studies go in-depth on issues unique to the podcast medium. A full-color presentation delivers tangible, inspiring examples of creative video podcasts. The companion website-[www.VidPodcaster.com](http://www.VidPodcaster.com)-provides a blog, templates, planning documents, sample clips, and state-of-the-art updates.

2008 Edition The authoritative guide to funding, preparing, shooting, lighting, editing, finishing and distributing your film or video Widely acknowledged as the "bible" of film and video production and used in courses around the world, this indispensable guide to making movies is now updated with the latest advances in high- definition formats. For students and teachers, the professional and the novice filmmaker, this clear and comprehensive handbook remains the reliable reference to all aspects of moviemaking. Techniques for making narrative, documentary, corporate, experimental and feature films. Working with high-definition and standard-definition digital video formats, including DV, HD, and HDV. Extensive coverage of video editing with the latest nonlinear editing systems. Thorough grounding in lenses, lighting, sound recording, and sound editing. The business aspects of financing and producing movies Written by filmmakers for filmmakers, this book will give you the skills you need to take your dreams from script to screen.

A bestselling classic (more than 200,000 copies sold in hardcover and paperback) that delves into the minds of some of the world's most successful traders.

Praise for THE NEW MARKET WIZARDS "Jack Schwager simply writes the best books about trading I've ever read. These interviews always give me a lot to think about. If you like learning about traders and trading, you'll find that reading this book is time well spent." -Richard Dennis, President, The Dennis Trading Group, Inc. "Jack Schwager's deep knowledge of the markets and his extensive network of personal contacts throughout the industry have set him apart as the definitive market chronicler of our age." -Ed Seykota "Very interesting indeed!" -John Train, author of The Money Masters "Successful trading demands longtime experience because it requires firsthand knowledge. If there is a shortcut to this requirement, however, it is in reading about the experiences of others. Jack Schwager's book provides that shortcut. If you find yourself sweating upon occasion as you read, then you're as close to the trading experience as you can get without actually doing it yourself." -Robert R. Prechter, Jr., editor, The Elliott Wave Theorist THE NEW MARKET WIZARDS Some traders distinguish themselves

from the herd. These supertraders make millions of dollars-sometimes in hours-and consistently outperform their peers. As he did in his acclaimed national bestseller, *Market Wizards*, Jack Schwager interviews a host of these supertraders, spectacular winners whose success occurs across a spectrum of financial markets. These traders use different methods, but they all share an edge. How do they do it? What separates them from the others? What can they teach the average trader or investor? In *The New Market Wizards*, these wildly successful traders relate the financial strategies that have rocketed them to success, as well as the embarrassing losses that have proven them all too human. Meet the Wizards of Wall Street: \* Stan Druckenmiller, who, as manager of the Soros Quantum Fund, realized an average annual return of more than 38 percent on assets ranging between \$2.0 and \$3.5 billion \* William Eckhardt, a mathematician who, in collaboration with trader Richard Dennis, selected and trained the now-legendary circle known as the Turtles \* Bill Lipschutz, a former architect who, for eight years, was Salomon Brothers' largest and most successful currency trader \* Blair Hull, a one-time blackjack player who began an options trading company with Asking the questions that readers with an interest in the financial markets would love to pose to the financial superstars, and filled with candid appraisals, *The New Market Wizards* takes its place as a classic.
