For non-majors/mixed biology courses. The most comprehensive coverage at the most affordable price for non-majors biology With a proven and effective tradition of engaging readers with real-world applications, high-interest case studies, and inquiry-based pedagogy, Biology: Life on Earth fosters discovery and scientific understanding that students can use throughout their lives. Engaging Case Studies throughout each chapter and thoughtful pedagogy help students develop critical thinking and scientific literacy skills. The 12th Edition offers the most comprehensive coverage at the most affordable price for the non-majors biology student. This loose-leaf edition maintains its conversational, question-and-answer presentation style that has made it a best-seller. The new edition expands its focus on the process of science with new Doing Science boxes throughout the text that walk students through the scientific process, and interactive Doing Science coaching activities in Mastering Biology. The text also provides Think Deeper questions that give instructors guidance for starting classroom discussions that promote critical thinking. For coverage of plant and animal anatomy & physiology, an alternate edition, Biology: Life on Earth with Physiology, 12th Edition, is also available. Also available as a Pearson eText or packaged with Mastering Biology: Pearson eText is a simple-to-use, mobile-optimized, personalized reading experience that can be adopted on its own as the main course material. It lets students highlight, take notes, and review key vocabulary all in one place, even when offline. Seamlessly integrated videos and other rich media engage students and give them access to the help they need, when they need it. Educators can easily share their own notes with students so they see the connection between their eText and what they learn in class - motivating them to keep reading, and keep learning. Revised edition of: Campbell biology in focus / Lisa A. Urry, Michael L. Cain, Steven A. Wasserman, Peter V. Minorsky, Jane B. Reece. Second edition. [2016].

Mastering Biology 3rd edition has been fully revised and updated to provide the information required for today's syllabuses. The book provides an interactive element where the readers can focus on the learning objectives, find them easily in each chapter, check their knowledge and understanding by answering the wide-ranging questions and revise their work using the end of chapter summaries. Mastering Biology can be a useful primer for students beginning A Level Biology after studying an integrated course at GCSE. It will also appeal to further education students.

MasteringBiology is an online assessment and tutorial system designed to help instructors teach more efficiently, and pedagogically proven to help students learn. It helps instructors maximize class time with customizable, easy-to-assign, and automatically graded assessments that motivate students to learn outside of class and arrive prepared for lecture. The powerful gradebook provides unique insight into student and class performance. As a result, instructors can spend class time where students need it most. MasteringBiology empowers students to take charge of their learning through assignable tutorials, activities, and questions aimed at different learning styles. It engages students in learning biology through practice and step-by-step guidance-at their convenience, 24/7. www.masteringbiology.com New items include Data Analysis Tutorials, Student Misconceptions Questions, Make Connections Tutorials, Experimental Inquiry Tutorials, Video Tutor Sessions, and Virtual Labs. Pre-built Reading Quizzes allow instructors to create quick and easy assignments in MasteringBiology to make sure students read the book before class. Instructors can easily edit the questions and answers or import their own questions.
