"Mercedes Benz" is an a cappella song written by singer Janis Joplin with the poet Michael McClure and Bob Neuwirth, and originally recorded by Joplin. In the song, the singer asks the Lord to prove His love for her by buying her a Mercedes-Benz automobile, a color TV, and a "night on the town." There is also a reference to Dialing for Dollars, a franchised format local television program ...

Formerly 'Automotive Brake Systems'. 2nd Edition. Safety is very important in vehicle design and operation. Driving-Safety Systems is the new edition of what was formerly titled 'Automotive Brake Systems'. The title has been changed to reflect the addition of information on recent technological advancements in safety systems beyond braking systems such as traction control systems (TCS) and electronic stability control (ESP). Ideal for engineers, technicians and enthusiasts, this book offers a wide range of detailed and easy-to-understand descriptions of the most important control systems and components. A new section on electronic stability has been added, and sections on driving physics, braking systems basics and braking systems for passenger cars and commercial vehicles have been updated. Contents include: Driving Safety in the Vehicle Basics of Driving Physics Braking-System Basics Braking Systems for Passenger Cars Commercial Vehicles - Basic Concepts, Systems and Diagrams Compressed Air Equipment Symbols Equipment for Commercial Vehicles Brake Testing Electronic Stability Program ESP.

Here, Timothy D. Taylor tracks the use of music in American advertising for nearly a century, from variety shows like 'The Clicquot Club Eskimons' to the rise of the jingle, from the postwar growth of consumerism, to the more complete fusion of popular music and consumption in the 1980s and after.

The notion of market power is central to antitrust law. Under EU law, antitrust rules refer to appreciable restrictions of competition (Article 101(1) Treaty on the Functioning of the European Union (TFEU), ex Article 81(1) EC Treaty), the elimination of competition for a substantial part of the market (Article 101 (3) TFEU, ex Article (81(3) EC), dominant positions (Article 10 (2) TFEU, ex Article 82 EC), and substantial impediment to effective competition, in particular by creating or reinforcing a dominant position (Article 2 of the EU Merger Regulation). At first sight, only the concept of dominant position relates to market power, but it is the aim of this book to demonstrate that the other concepts are directly linked to the notion of market power. This is done by reference to the case law of the EU Courts and the precedents of the European Commission. The author goes on to argue that for very good reasons (clarity and enforceability, among others) the rules should be interpreted in this way. Beginning with market definition, the book reviews the different rules and the different degrees of market power they incorporate. Thus it analyses the notion of 'appreciable restriction of competition' to find a moderate market power obtained by agreement among competitors to be the benchmark for the application of Article 101 TFEU, ex Article 81 EC. It moves on to the concept of dominance under Article 102 TFEU (ex Article 82 EC), which is equivalent to

substantial (or significant) market power, and then focuses on the old and new tests for EU merger control. Finally, it addresses the idea of elimination of competition in respect of a substantial part of the market (Article 101 (3) TFEU, ex Article 81 (3) (b) EC), in which the last two types of market power (Article 102 TFEU, ex Article 82 EC and EU Merger Regulation) converge. To exemplify this, an in-depth study of the notion of collective dominance is conducted. The book concludes that a paradigm of market power exists under the EU antitrust rules that both fits with past practice and provides for a useful framework of analysis for the general application of the rules by administrative and even more importantly judicial authorities in the Member States, under conditions of legal certainty.
