The focus of this review has been on the 200 or so regulations and the 53 Approved codes of practice owned by the Health and Safety Executive. It concentrates on areas where evidence and contributions have indicated that regulations are putting undue costs on business whilst doing little to improve health and safety outcomes. The general sweep of requirements set out in health and safety legislation are broadly fit for purpose but there are a few that offer little benefit to health and safety and which the government should remove, revise or clarify, in particular the duties for self-employed people whose work activities pose no potential risk of harm to others. The much bigger problem is that regulator requirements are misunderstood and applied inappropriately and recommendations are put forward to address this. They seek to: streamline the body of regulation; re-direct enforcement activity towards business where there is the greatest risk of injury or ill health; re-balancing the civil justice system by clarifying the status of pre-action protocols and reviewing strict liability provisions

Internal auditing is an essential tool for managing compliance, and for initiating and driving continual improvement in any organization's systematic HSEQ performance. Health and Safety, Environment and Quality Audits includes the latest health and safety, environmental and quality management system standards - ISO 9001, ISO 14001 and ISO 45001. It delivers a powerful and proven approach to risk-based auditing of business-critical risk areas using ISO, or your own management systems. It connects the 'PDCA' approach to implementing management systems with auditing by focusing on the organization's context and the needs and expectations of interested parties. The novel approach leads HSEQ practitioners and senior and line managers alike to concentrate on the most significant risks to their objectives, and provides a step-by-step route through The Audit Adventure™ to provide a high-level, future-focused audit opinion. The whole approach is aligned to the international standard guidance for auditing management systems (ISO 19011). This unique guide to HSEQ and operations integrity auditing has become the standard work in the field over three editions whilst securing bestseller status in Australasia, Europe, North America and South Africa. It is essential reading for senior managers and auditors alike - it remains the 'go to' title for those who aspire to drive a prosperous and thriving business based on world-class HSEQ management and performance.
