“Saving Lawson” is the second and final book in R.J. Lewis series entitled “Loving Lawson” and picks up (almost) right where the previous book ended. While I enjoyed book1, I loved this one. It was intriguing, kept me at the edge of my seat and it was full of twists and turns.

WOW just wow. I loved “Loving Lawson” with the wonderful relationship between Heath and Allie, so was excited when “Saving Lawson” was available. Cannot believe the long and winding road you took us down R.J. Lewis – how many times my heart broke and silently cried out NOOOO and then a few pages later YESSSS.

In this book, the author draws from finance, psychology, economics, and other disciplines in business and the social sciences, recognising that personal finance and investments are subjects of study in their own right rather than merely branches of another discipline. Considerable attention is given to topics which are either ignored or given very little attention in other texts. These include: the psychology of investment decision-

making stock market bubbles and crashes property investment the use of derivatives in investment management regulation of investments business. More traditional subject areas are also thoroughly covered, including: investment analysis portfolio management capital market theory market efficiency international investing bond markets institutional investments option pricing macroeconomics the interpretation of company accounts. Packed with over one hundred exercises, examples and exhibits and a helpful glossary of key terms, this book helps readers grasp the relevant principles of money management. It avoids non-essential mathematics and provides a novel new approach to the study of personal finance and investments. This book will be essential for students and

SITUATIONS THAT MAY BE UNCOMFORTABLE FOR SOME***When boyfriend Ryker Lawson is sentenced to prison on drug charges, Allie Wallace faces a life changing event. After being turned away from her mother and on the verge of homelessness, she turns to an unexpected source for help: her boyfriend's older brother. Heath Lawson is everything his brother isn't: a rough, street fighter that can't commit to a girl if his life depended on it. He likes being on his own. Likes living the simple life. But when Allie turns up asking for help, he has no choice but to take her in. Knowing Allie most of her life, help is something Heath is more than ready to offer. After all, she's the love of his brother's life. However, what he doesn't expect... is that she's also his too.

The imperial powers of the nineteenth century, having weakened one another in World War I, destroyed themselves in World War II. In the aftermath of the war, Europe was in shambles. Nearly all of France, Germany, Italy, and Poland had been devastated. Bridges and roads were gone. Rivers and canals were clogged with sunken ships and fallen bridges. Unexploded bombs and shells littered fields. Postwar inflation whipsawed the survivors: cigarettes, coffee, and chocolate were better currencies than Deutsche marks. Prices rose in Italy to thirty-five times their prewar level. Before the year was over, disastrous harvests across the continent would leave Europeans hungry, and, in some places, even starving. Only two great powers remained strong enough to

This book examines consumer behavior using the “life course” paradigm, a multidisciplinary framework for studying people's lives, structural contexts, and social change. It contributes to marketing research by providing new insights into the study of consumer behavior and illustrating how to apply the life course paradigm’s concepts and theoretical perspectives to study consumer topics in an innovative way. Although a

growing number of marketing researchers, either implicitly or explicitly, subscribe to life course perspectives for studying a variety of consumer behaviors, their efforts have been limited due to a lack of theories and methods that would help them study consumers over the lifecycle. When studying consumers over their lifespan, researchers examine differences in the consumer behaviors of various age groups (e.g., children, baby boomers, elderly, etc.) or family life stages (e.g., bachelors, full nesters, empty nesters, etc.), inferring that consumer behavior changes over time or linking consumption behaviors to previous experiences and future expectations. Such efforts, however, have yet to benefit from an interdisciplinary research approach. This book fills this gap in consumer

research by informing readers about the differences between some of the most commonly used models for studying consumers over their lifespan and the life course paradigm, and providing implications for research, public policy, and marketing practice. Presenting applications of the life course approach in such research topics as decision making, maladaptive behaviors (e.g., compulsive buying, binge eating), consumer well-being, and cognitive decline, this book is beneficial for students, scholars, professors, practitioners, and policy makers in consumer behavior, consumer research, consumer psychology, and marketing research.

Covers the story of how Mr. Bingle came to be created as a New Orleans Christmas character for a local department store and eventually as a familiar New Orleans advertising character.

A week before the outbreak of the First World War, an acute financial crisis surged over London: the Stock Exchange closed; money markets worldwide were paralysed. Drawing on diaries, letters, memoirs, press reports, and official archives, this book tells the extraordinary, and largely unknown, story of the first true global financial crisis.
