His understanding of social change and shifting the power relations between workers and employers was closely linked with nonviolent action. Furthermore, the reasons for the non-violent actions will be analysed through the Ration Action Theory. The paper consists of two parts: The first part will elaborate on the problems for foreigner field workers, how the organization and the social worker movement La Causa could be a solution to that and the meaning of Chavez persona and his methods. The second part of the paper follows the research question: Why is non-violence an adequate strategy to fight injustice on the farm fields?

Explores the growth and development of the farm labor organizer Cesar Chavez is the most prominent Latino in United States history books, and much has been written about Chavez and the United Farm Worker's heyday in the 1960s and '70s. But left untold has been their ongoing impact on 21st century social justice movements. Beyond the Fields unearths this legacy, and describes how Chavez and the UFW's imprint can be found in the modern reshaping of the American labor movement, the building of Latino political power, the transformation of Los Angeles and California politics, the fight for environmental justice, and the burgeoning national movement for immigrant rights. Many of the ideas, tactics, and strategies that Chavez and the UFW initiated or revived—including the boycott, the fast, clergy-labor partnerships and door-to-door voter outreach—are now so commonplace that their roots in the farmworkers' movement is forgotten. This powerful book also describes how the UFW became the era's leading incubator of young activist talent, creating a generation of skilled alumni who went on to play critical roles in progressive campaigns. UFW volunteers and staff were dedicated to furthering economic justice, and many devoted their post-UFW lives working for social change. When Barack Obama adopted "Yes We Can" as his 2008 campaign theme, he confirmed that the spirit of "Si Se Puede" has never been stronger, and that it still provides the clearest roadmap for achieving greater social and economic justice in the United States.

Transiciones is a thorough ethnography of seven Latino students in transition between high school and community college or university. Data gathered over two years of interviews with the students, their high school English teachers, and their writing teachers and administrators at postsecondary institutions reveal a rich picture of the conflicted experience of these students as they attempted to balance the demands of schooling with a variety of personal responsibilities. Todd Ruecker explores the disconnect between students' writing experiences in high school and higher education and examines the integral role that writing plays in college. Considering the almost universal requirement that students take a writing class in their critical first year of college, he contends that it is essential for composition researchers and teachers to gain a fuller understanding of the role they play in supporting and hindering Latina and Latino students' transition to college. Arguing for situating writing programs in larger discussions of high school/college alignment, student engagement, and retention, Transiciones raises the profile of what writing programs can do while calling composition teachers, administrators, and scholars to engage in more collaboration across the institution, across institutions, and across disciplines to make the transition from high school to college writing more successful for this important group of students.
