Gospel of Thomas, an early collection of Jesus's sayings? Or was the enigmatic Beloved Disciple in John's Gospel in fact Thomas? Ismo Dunderberg provides a critical examination of these theories.

The Gospel of John the Beloved isn't like the other Gospels. John includes stories, details, and symbols not found anywhere else in the Bible, showcasing models of discipleship from unlikely sources: the outcast, the unclean, the unfaithful, and more. While there are many ways to be a disciple of Jesus Christ, in the end, all disciples are united by love for our Savior and willingness to follow Him.

He thought he had seen everything. Having been with Jesus all the years of His ministry, John witnessed more miracles than he could count, saw more displays of power than he could comprehend, and experienced more love than he could fathom. John was there when Jesus turned the water to wine, offered living Water to the woman at the well, yielded to His Father's will in the garden of Gethsemane, and gave His life on a Roman cross. And one unforgettable morning young John outran Peter to his Savior's empty tomb. Yet God had more in store for the Son of Thunder. As the other disciples were martyred one by one, John remained to write his sublime Gospel proclaiming Jesus' identity as the eternal Word of God. In his three letters John left a legacy of divine love to ignite the passion of future believers. And while exiled on Patmos, John recorded His risen Lord's glorious revelation of victory and

that formed his personality and the incidents that caused change in him.

Father Montague revisits many of the most familiar passages from the Gospel of John and with rare and surprising insights helps us to see in depth much of what is hidden under the surface of these popular texts.

"The Gospel of John refers five times to "the disciple whom Jesus loved." From the second through the present century, scholars have sought to identify this "disciple," traditionally concluding that he is the author of the Gospel and is indeed none other than John the son of Zebedee." "In recent phases of research, however, the identification of the Beloved Disciple with John the son of Zebedee

has been exposed as weak and unpersuasive. Yet, according to James Charlesworth, even this new research is problematic in that it tends to ascribe priority in discerning the meaning of the Gospel of John to documents other than the Gospel itself. Moreover, this research tends to impute historical accuracy to documents that were not primarily intended to present histories." "Based on extensive research, then, Professor Charlesworth has concluded that the primary texts in the Gospel of John and the reflections of modern scholars indicate that any identification of the Beloved Disciple - whether with one of the disciples specified in the Gospel, with one who is anonymous in this Gospel, or with some symbolic theme - must provide credible answers to eight questions."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
