In The Memory Illusion, forensic psychologist and memory expert Dr Julia Shaw uses the latest research to show the astonishing variety of ways in which our brains can indeed be led astray. She shows why we can sometimes misappropriate other people's memories, subsequently believing them to be our own.

The Memory Illusion: Remembering, Forgetting, and the ...
Herein lies the crux of false memory: 1.) anything one visualizes in detail might potentially be stored away and become undifferentiated from the experiencing of an event; 2.) when we recall a memory we are recalling the last time we remembered it and not the event directly, and this can lead to a disparity between the memory and the actual event as it gets tied up with what's going on in one's mind at the time.

The Memory Illusion: Remembering, Forgetting, and the ...
It is normal to occasionally forget someone's name or why you went into the kitchen, but it is also just as normal to re-write entire memories, minutes or years after the original occurrence. Dr. Julia Shaw, memory expert and forensic psychologist, actually creates false memories in healthy unsuspecting college students.
