Marine Corps Warfighting Publication MCWP 6-10 (Formerly MCWP 6-11) Leading Marines 2 May 2016 The act of leading Marines is a sacred responsibility and a rewarding experience. This publication describes a leadership philosophy that speaks to who we are as Marines. It is about the relationship between the leader and the led. It is also about the bond between all Marines that is formed in the common forge of selfless service and shared hardships. It's in this forge where Marines are hardened like steel, and the undefinable spirit that forms the character of our Corps is born. It draws from shared experiences, hardships, and challenges in training and combat. Leading Marines is not meant to be read passively; as you read this publication, think about the material. You should reflect on, discuss, and apply the concepts presented in this publication. Furthermore, it is the responsibility of leaders at all levels to mentor and develop the next generation of Marine leaders.
